

China Source Electronics, Inc.

CSE is a provider of Supply Chain Solutions specializing in cost reductions, strategic sourcing, negotiations, and outsourcing.

China Source Electronics, Inc.

Why Us?

CSE is a provider of Supply Chain Solutions specializing in cost reductions, strategic sourcing, negotiations, and outsourcing. CSE has offices in Asia, United States and Mexico and an operating network that connects us throughout the world.

CSE's solutions minimize risk, lower costs and aid in supply chain management.

Our service offers full transparency to our customers. We facilitate the development of direct relationships with key supply base partners.

Your Benefits

Many companies do not have the resources or experience to effectively source in Asia. However for most companies, it is mission critical to develop this skill. Our Sourcing service accelerates your company's Asian sourcing development while providing cost reductions along the way. We can also provide the leverage with your current supplier base to create critical cost downs with our Negotiation services.
